World Skate "Next Generation" Skatepark Facility Program

Dear Koog aan de Zaan,

I am writing to you in my capacity as the Director of the Facility Department at World Skate, the internationally recognized governing body for all roller sports, as acknowledged by the International Olympic Committee.

With skateboarding making its second appearance at the 2024 Olympics in Paris, its growth and potential since its debut have been remarkable. Many municipalities are now recognizing the value of high-quality skatepark facilities for their communities and are initiating such projects.

To support this global development, World Skate has initiated the "Next Generation" skate facilities program, along with the skatepark facility certification. This program aims to provide municipalities with the resources and expertise needed to effectively design and develop these urban spaces.

I invite you to review the attached one-pager, which outlines the potential benefits of integrating a state-of-the-art certified skatepark into Koog aan de Zaan.

Should you have any questions or require further information, please do not hesitate to contact the World Skate Facilities Department. Our team is prepared to offer guidance, advice, and support as you explore the possibility of enhancing your city through the creation of a dynamic and sustainable skatepark.

We look forward to the opportunity to collaborate with Koog aan de Zaan and contribute to the positive development of your community and this exciting sport.

Sincerely,
Jerry Bekkers
World Skate Facility Department Director

NEXT GENERATION SKATE FACILITIES

An initiative shaping the future of skate facilities by combining the knowledge and experiences of Olympic programs, athletes and design and build specialists.

CERTIFICATION

Acknowledgement of the adherence to the World Skate standards within its "Next Generation" skate facilities program.

SOCIAL UTILITY

To share the future of skate facility developments worldwide. Providing a supportive platform for anyone involved in skate facility project development.

COOPERATIVE

Secure World Skate's support and consulting for top-tier standards. International competition approval and skate facility certification.

SOCIAL UTILITY

Become a dynamic hub, fostering community engagement, urban culture, and youth development, while contributing to the social impact of urban sports.

TECHNICAL

Ensure enduring relevance by acknowledging sustainability, fulfilling ambitions, maximising potential, and aligning with athletes' needs.

ECONOMICAL

Transform your destination into a premier hub for athletes and tourists worldwide, reaping economic benefits through events, skate tourism, and city marketing.
